

US TIMESHARE OWNERS

RealSource, Inc. owns and manages the largest and most accurate US Timeshare Owners List available in the market today. Our US Timeshare Owners List is continually updated with new timeshare owners and purged of consumers who no longer own their timeshare. Our list is meticulously cleaned through our extensive data hygiene process providing the most accurate and deliverable postal addresses and connectable phone records available.

According to ARDA (American Resort Development Association) there are more than 4.5 million timeshare owners in the US with that number steadily growing. This means a steady flow of spending by consumers focused on the travel industry. According to survey data over 40% of current timeshare owners plan to purchase additional timeshares and or upgrade their existing timeshare.
